Reports to: Project Delivery Manager

Start: TBC

Location: Near Tonbridge, Kent

Salary: £25k to £30k depending on experience

TRULY FIBRE, TRULY FAST

We're expanding our team as we transform broadband in Kent and beyond. If you'd like to join us on our exciting journey, we'd love to hear from you. We are building our own fibre optic networks to homes and businesses using Fibre to the Premises (FTTP) technology – this means we can offer our customers the highest speed and highest quality broadband services in the country – guaranteed! The Trooli networks are modern, future-proof and fit for the digital age.

THE ROLE

We're a small company with a very exciting future. You will be an experienced and competent fibre optic splicer who completes work to the highest quality. You will be part of an installation team of four people, including a team of two cablers, connecting and testing our fibre optic cables inside the existing BT Openreach ducts to build our ultrafast broadband network.

Responsibilities

Install and splice

- **Risk assessments.** Carry out risk assessments prior to work.
- **Fibre Points.** Install, splice and secure fibre distribution points either underground or mounted on telegraph poles.
- **Navigate the network.** Interpret job packs and fibre allocation tables
- **Install Passive Equipment.** Install and splice splitters in broadband cabinets using automatic fusion splicer.
- **Build Completion.** Photograph completed fibre distribution points both inside the closure and externally showing position on chamber or on pole.
- **Work safely** using gate guards and signage as appropriate.
- **Tools and Equipment.** Take responsibility for tools issued and vehicle assigned in accordance with Call Flow vehicle policy.

Testing

- **Carry out acceptance testing** using OTDR, light source and power meter
- Trace and rectify any faults found

The role is principally working within a network installation team. However, you may also be required to carry out splicing work at the customer premises.

Your experience

The successful applicant will have a proven track record of high-quality fibre optic splicing work and excellent references, with at least 3 years' experience of splicing in BT Openreach ducts and infrastructure - both overhead and underground.

Your qualifications

- NSRWA Unit 2 Signage, guarding and light
- NSRWA Unit LA Avoidance of underground apparatus
- IPAF MEWP Mobile Boom B3
- Conversant with principles and standards for Passive Optical Networks
- Knowledge and experience of working to BT Openreach standards and processes for underground safety, working at height and confined spaces
- Current qualification to work on BT Network or equivalent
- Full clean driving license.

Your personal attributes

- You will be able to develop excellent working relationships within your team, with your manager, and with other teams within Call Flow and Trooli
- You strive to make efficiencies and work smarter
- You have excellent organisation skills
- You are a clear and concise communicator
- You are physically fit to carry out manual handling.

Our values

- **Integrity:** be transparent and honest with our customers and with each other.
- **Passion:** be excited about what we do.
- **Develop:** invest in each individual.
- **Continual improvement:** work smarter, not harder.
- **Proactive:** take responsibility.
- **Teamwork:** support and collaboration.
- **Quality:** we do what we do well.

We are looking for highly motivated people that are excited by the prospect of a new challenge. If you think you are the person we are looking for, please send your CV to christine.mccabe@callflow.co.uk & eleanor.francis@callflow.co.uk prior to the closing date.
