

NETWORK PLANNER

Business function:	Network Build
Reports to:	Build Programme Manager
Location:	Kings Hill, Kent
Salary:	£18k-£22k per annum depending on experience
Terms:	Permanent full time. Flexible working considered.

TRULY FIBRE, TRULY FAST

We're expanding our team as we transform broadband in Kent and beyond. If you'd like to join us on our exciting journey, we'd love to hear from you. We are building our own fibre optic networks to homes and businesses using Fibre to the Premises (FTTP) technology – this means we can offer our customers the highest speed and highest quality broadband services in the country – guaranteed! The Trooli networks are modern, future-proof and fit for the digital age.

THE ROLE

We're a small company with a very exciting future. This opening provides an exceptional opportunity for an experienced and dynamic Planner. They will be required to work collaboratively with Build Delivery Managers and Build Programme Managers and will support the Network build teams. This is a dynamic opportunity within a rapidly growing company.

We require you to provide support to the Network Planning Manager and the Build team and to continually identify and implement improvements across the planning process operation to ensure that business objectives and outcomes are in harmony with Trooli's strategic goals. You will be required to - design and plan - FTTP access network infrastructure up to and including the customers premises.

The most suitable candidates for this will have previously worked in a fibre network planning position for the likes of BT, Virgin Media, Cityfibre, Hyperoptic, however, a trainee who can demonstrate good mapping skills and an aptitude for planning would be considered.

Responsibilities

- Support the Network Planning Manager with the design of the fibre-optic infrastructure and civils for Fibre To The Home networks. Designs to comply with overall planning guidelines to deliver cost effective and fit for purpose designs.
- Apply the design principles to develop a high-level / fundamental FTTP network plan for a given area
- To support the projects team by seeking authorisation and planning approvals from our external service providers.

- Updating database and self-serving data to produce detailed maps.
- Identifying and following up missing or flawed information.
- Gather and process information from multiple sources, to collate and communicate in logical and appropriate manner to varying audiences.
- To work with accuracy and speed to analyse, record and share information in an articulate, timely and simple manner.
- Desire to learn new skills within planning processes, and subsequently adhere to and role model great process practices.
- Maintain efficient communication within project team relating to status of all works and requests.
- Assist the Build Delivery managers and Build programme manager in continual development of the overall programme plans and processes.
- To avoid cost and delay by replanning to avoid obstacles which would otherwise impact on delivery of our network. To be resourceful in planning re-routes. To work resourcefully to replan routes avoiding cost and delays. Current and proficient user of GIS systems/tools for FTTP design
- To look for ways to utilise as much existing infrastructure in the design as is possible and practical
- Undertake and supervise As-Built process including timely submissions
- Deliver quality planning projects to the agreed deadline/timescale

Your experience

Excellent communication skills: ability to communicate the right level of information clearly to the right people at the right time – inside and outside our organisation.

- Working knowledge Google Earth, Paint and photoshop.
- Interest in learning mapping and GIS systems.
- Able to interpret maps and plans
- Self-motivated organiser with excellent time management skills.
- Quick to pick up new systems and processes.
- Thorough in all working practices, processes and approach.
- Confidence with Microsoft office particularly excel (essential) and access (beneficial).
- High level of numeracy.
- Ability to multi-task and prioritise across a range of processes, dealing with rapidly evolving priorities effectively
