Terms:	Permanent, Full time

A BIT ABOUT US

Here at Trooli, we're on a mission to banish buffering, vanish video call embarrassment and clear up those "up to" speed claims that give broadband a bad name.

How? By providing our **new, guaranteed, ultrafast, full fibre broadband speeds** to as many communities as possible across Kent, East Sussex and beyond.

We've already got the great network, now we need more **great people** to take us even further.

Think you can help? Here's why you should get in touch ...

- **We're passionate about growth**
We've come a long way in 2 years, from nothing to 50,000+ premises passed, 10 staff to over 100 and are now one of the most respected altnets in the industry – and that's just the start. But it's not just our network, we're passionate about ensuring our employees grow with us too.
- **We're passionate about our people**
At the heart of our culture is a belief that a company should be much more than politics and processes. That doesn't mean these don't exist, but it does mean that our people are the most important part of our business, that life here is that bit more fun and our high staff retention rates are something we're rightly proud of.
- **We're passionate about our customers** – wouldn't it be nice for a broadband network to be independent of Openreach and have complete control of where it builds and the experience our customers receive? Well, that's exactly what Trooli is and with an Excellent Trustpilot rating from our customers, it's clear we're doing something right!
